Three-year index of articles

A complete index of articles published in POWER TRANSMISSION DESIGN *during 1974, 1975, and 1976. Lengths of articles, in pages, appear in parentheses after the titles. The index does not include listings in our Annual January Product Specification Issues and in monthly Techlit Reviews, and shorter articles published in our regular departments. Photocopies of articles are available at ten cents a sheet. Limited quantities of magazines are available at $1.50 each. Minimum order for photocopies and magazines is $2.00. Remittance must accompany all orders of less than $25.00. Make out your check to* POWER TRANSMISSION DESIGN, *P.O. Box 5748-U, Cleveland OH 44101. Out-of-print copies of the magazine are available in complete volumes as positive microfilm from University Microfilms, 300 N. Zeeb Rd., Ann Arbor MI 48103.*

ADJUSTABLE-SPEED DRIVES

Title, length — **Month, page**

1974

Darlington switches refine motor control (3) ..... May 62
High-wire performance: Hydraulic motors run it (4) ..... Jun 67
SCR drives hit nail on head (1/2) ..... Oct 97
Split-path drive adds machine-tool flexibility (4) ..... Nov 29

1975

Adjustable-speed drive controls printing press (2/3) ..... May 78
Solid-state control of electric drives—Part 1 (2) ..... Jun 58
Closed-loop differential drive simplifies strip processing (3) ..... Aug 41
Fluid drives reduce ore conveyor costs (1) ..... Oct 65
From ice cream to red hot shovel heads (1) ..... Oct 73
Today's traction drives (9) ..... Nov 41
Solid-state industrial power and control come of age (3) ..... Nov 50
D.c. drive modules power printing press (2) ..... Nov 56

1976

Historical highlights of adjustable-speed drives (2) ..... Jan 40
Constant tension drives speed vinyl production (4) ..... Feb 47
Solid state control of electric drives—Part 2 (3) ..... Feb 56
Choosing the right power-shift transmission for mobile equipment (3) ..... May 40
Solid state control of electric drives—Part 3 (2) ..... Jun 66
Hydrostatic drive takes wrap in paper-tube caper (2/3) ..... Jul 49
Adjustable-frequency drive runs new knitting machine (1) ..... Oct 77
Drive simulates jet engine (1) ..... Oct 85
Solid state control of electric drives—Part 4 (2) ..... Oct 96
HVD versatility expands in industrial applications (3) ..... Nov 43
Adjustable-speed gear drive (2) ..... Nov 46
Solid state control of electric drives—Part 5 (4) ..... Nov 51
Hydraulic motors drive straddle transporter (2) ..... Dec 51

BELT DRIVES

Title, length — **Month, page**

1974

Synchronous belts move in on high-torque jobs (4) ..... Apr 39
How to select endless woven belts (3) ..... Apr 43

1975

Maintaining V-belt drives (3) ..... Apr 55
Nomograph solves belt geometric problems (2) ..... Apr 64
Drive components that run a V-belt life tester (2) ..... Aug 45
How the application selects the drive component (1-2/3) ..... Sep 64
Fluid drives reduce ore conveying costs (1) ..... Oct 65

1976

Historical highlights of belt drives (2) ..... Jan 24
Drives help the ancient windmill go mod (3) ..... Mar 56
Evaluating special V-belt sheaves (3) ..... Apr 57
Synchronous belting speeds letter sorting (2) ..... Apr 60
Nomograph gives maximum rated speed for flywheels and pulleys (2) ..... Apr 62
How and when belts should be tested (2/3) ..... Sep 44

BEARINGS

Title, length — **Month, page**

1974

Fretting of bronze on steel: How to see it; how to avoid it (3) Feb 37
Heavy-lift helicopter brings up drive ideas (14-1/3) ..... Mar 49
What about wood bearings? (2) ..... Jul 50
Drives and bearings round out tire production (5) ..... Sep 55

1975

How to care for needle roller bearings—Part 1 (4) ..... Feb 46
How to care for needle roller bearings—Part 2 (3) ..... Apr 58
Geared aerators help stream management (3) ..... May 75
B-1 bomber: The Teflon bearings story (4) ..... Jul 41
Monitoring sleeve bearing and oil temperature (1-1/3) ..... Jul 45
Polycrystalline diamond cuts fiber glass bearings (1) ..... Jul 46
Pneumatic seals protect rolling-element bearings (1) ..... Jul 47
Load cells in bearings keep efficiency watch (1) ..... Jul 48
D.c.-motor powered gears churn angry seas (2) ..... Aug 47
Thin-section bearings help wind motor stators (2) ..... Aug 50
What is a rolling-element linear-motion bearing? (4) ..... Sep 52
How the application selects the drive component (1-2/3) ..... Sep 64
Oil-containing poly matrix can replace bearing grease (2) ..... Sep 66
Stamped rod ends trim recreational vehicle cost (1) ..... Nov 58

1976

Historical highlights of plain bearings and lubricants (1) ..... Jan 32
Historical highlights of rolling-element bearings (2) ..... Jan 44
Aerosol lubricant helps run-in gears and bearings (1) ..... Feb 59
Machine noise: What to do about it (4-1/3) ..... Apr 53
Understanding large bearings (4) ..... Jul 41
Mounted rolling bearings in power transmission—Part 1 (3) ..... Jul 45
Eight ways to stop rolling bearing failure—Part 1 (4) ..... Aug 48
Pump-rig rebuilders like self-lube materials (1) ..... Oct 79
Ball screws tilt steel tundish cars (1) ..... Oct 83
Mounted rolling bearings in power transmission—Part 2 (4) ..... Oct 89
Eight ways to stop rolling bearing failure—Part 2 (3) ..... Dec 53

CHAIN DRIVES

Title, length — **Month, page**

1974

Gearmotors upgrade concrete block-making (4-1/3) ..... May 49
Motorized drives give lithography press a hand (2) ..... May 58
Metrication rolls softly in the chain industry (2) ..... Sep 74
An alarm in time saves downtime (2) ..... Dec 34

1975

Phase-adjusting hub keeps colors in line (2-1/3) ..... Feb 41
Meeting metric—Chain drive in CGS and SI (1-1/3) ..... May 86
Chain drive spins Ohio coal breakers (1) ..... Aug 52

1976

Historical highlights of chain drives (1) ..... Jan 22
Brakemotors move can conveyors softly (3) ..... Mar 47
Multiple-drive conveyor: Sprag clutches keep it going (2) .... Mar 50
Toothless sprocket turns chain-driven table (1-1/3) ..... Sep 49

MOTORS, ENGINES, AND ACTUATORS

Title, length — **Month, page**

1974

Selecting high performance incremental motion devices (5) .. Feb 42
Motorized drives give lithography press a hand (2) ..... May 58
Darlington switches refine motor control (3) ..... May 62
High-wire performance: Hydraulic motors run it (4) ..... Jun 67
NEMA expands safety standard for motors and generators (1) Jun 71
Sawyer-Principle linear motor positions without feedback (5) Jun 72
Drives and bearings round out tire production (5) ..... Sep 55
Drum motors speed up the mail (1/2) ..... Oct 101
Lazy gears that drive nothing, but work well (4) ..... Dec 29

1975

Rotary actuator helps stop rocking the boat (2) ..... Feb 50
Remote controls simplify mobile hydrostatic drives (3) ..... Mar 44
Turbine and reducer team up in missile actuator (2) ..... Apr 66
Modular design eases troubleshooting of lift truck motor controls (3) ..... Jun 55
Solid state control of electric drives—Part 1 (2) ..... Jun 58
Torque actuators bend bumpers (1-1/3) ..... Jun 60
Product standardization: Series approach (4-1/3) ..... Jun 61
Closed-loop differential drive simplifies strip processing (3) .. Aug 41
D.c.-motor powered gears churn angry seas (2) ..... Aug 47
Thin-section bearings help wind motor stators (2) ..... Aug 50
Fluid drives reduce ore conveying costs (1) ..... Oct 65
Electric motors help ecology (1/2) ..... Oct 71
Solid-state industrial power and control come of age (3) ..... Nov 50
Adjustable frequency for multimotor drive controls (3) ..... Nov 53
D.c. drive modules power printing presses (2) ..... Nov 56

1976

Historical highlights of electric motors (2) ..... Jan 36
How to select d.c. servomotors (4) ..... Feb 52
Brakemotors move can conveyors softly (3) ..... Mar 47
Machine noise: What to do about it (4-1/3) ..... Apr 53
Hydraulic motors take to outdoors (2) ..... May 43
Fhp motors team up on rim-drilling machine (2-1/3) ..... Jun 55
High starting torque can cost you (1-2/3) ..... Jun 57
How unbalanced voltage affects a.c. motors (4) ..... Jun 60
Modular overload relays protect a.c. motors (2) ..... Jun 65
Solid state control of electric drives—Part 3 (2) ..... Jun 66
How to get safe starts on 3-phase motors (3) ..... Jun 68
Hollow motors drive weld wires (1) ..... Jun 71
Ball screws tilt steel tundish cars (1) ..... Oct 83
Hydraulic motors drive straddle transporter (2) ..... Dec 51

CLUTCHES, BRAKES, COUPLINGS, U-JOINTS, FLEXIBLE SHAFTS

Title, length — **Month, page**

1974

Selecting high-performance incremental motion drives (5) ... Feb 42
Torque limiters stop jam at Kama River truck plant (2) ..... May 60
High-wire performance: Hydraulic motors run it (4) ..... Jun 67
Dual-action brake has built-in backup (1/2) ..... Oct 97
Tension brakes help loggers (1/2) ..... Oct 101
Magnetic particle clutch aids tension control for tape slitter (1) Oct 103
An alarm in time saves downtime (2) ..... Dec 34

1975

Centrifugal clutch has gentle touch (3) ..... Mar 40
Tough path to follow? Try a flexible shaft (3) ..... May 69
Using controlled stiffness and isolation in drives (3-1/2) ..... May 72
Motion control: Old but ever new (1) ..... Sep 68
Fluid drives reduce ore conveying costs (1) ..... Oct 65
Electric brakes go to sea (1) ..... Oct 69
Flexible coupling cuts car wash maintenance (1/2) ..... Oct 71
Clutch/brakes and photoelectrics package the goods (1) ..... Oct 75
Flexible shaft hits the spot (1) ..... Nov 59

1976

Historical highlights of shaft-joining devices (2) ..... Jan 28
Historical highlights of clutches (1) ..... Jan 34
Brakemotors move can conveyors softly (3) ..... Mar 47
Multiple-drive conveyor: Sprag clutches keep it going (2) .... Mar 50
Nomograph finds disc-clutch torque (2) ..... Mar 52
Machine noise: What to do about it (4-1/3) ..... Apr 53
Troubleshoot driveshafts and universal joints (3) ..... May 37
Flexible couplings: What you can get (1) ..... Sep 45
Glove maker has twin clutch-brake modules (1) ..... Oct 75
Single-coil clutch-brake cuts energy and backlash (1-2/3) .... Oct 98

GEAR DRIVES

Title, length — **Month, page**

1974

Heavy-lift helicopter brings up drive ideas (14-1/3) ..... Mar 49
Double-enveloping wormgears tilt and turn milling table (1-1/3) Apr 46
Gearmotors upgrade concrete block-making (4-1/3) ..... May 49
High-wire performance: Hydraulic motors run it (4) ..... Jun 67
Actuators challenge winches on lake carriers (2) ..... Jun 78
Understanding and using fractional double-tapered shaft-hub connections (5) ..... Jul 57
Modular gear drives give trucks a lift (3) ..... Aug 41
Don't overlook skew-axis wormgears (2) ..... Aug 44
Nomographs help design helical gears (3-1/3) ..... Sep 76
Split-path drive adds machine-tool flexibility (4) ..... Nov 29
Lazy gears that drive nothing, but work well (4) ..... Dec 29

1975

Phase-adjusting hub keeps colors in line (2-1/3) ..... Feb 41
Program your calculator for gear drive problems—Part 1 (3) .. Apr 61
Turbine and reducer team in missile actuator (1-2/3) ..... Apr 66
Geared aerators help stream management (3) ..... May 75
Program your calculator for gear drive problems—Part 2(2) ... Jul 49
Closed-loop differential drive simplifies strip processing (3) .. Aug 41
D.c.-motor powered gears churn angry seas (2) ..... Aug 47
Coated gears shrug at temperature extremes (3) ..... Sep 49
Modular gear drives give trucks a lift (1) ..... Oct 67
Program your calculator for gear drive problems—Part 3 (1-2/3) Oct 80
Bandsaw control system has automatic operation (2) ..... Dec 33

1976

Historical highlights of gearing (2) ..... Jan 18
Constant tension drives speed vinyl production (4) ..... Feb 47
Aerosol lubricant helps run-in gears and bearings (1) ..... Feb 59
Program your calculator for gear drive problems—Part 4 (2) . Mar 54
Drives help the ancient windmill go mod (3) ..... Mar 56
Machine noise: What to do about it (4-1/3) ..... Apr 53
Program your calculator for gear drive problems—Part 5 (1-2/3) May 47
Understanding large bearings (4) ..... Jul 41
Frictional locking devices mount reducers on shafts (3) ..... Aug 41
Continuous casting machine is gear drive showcase (2) ..... Aug 44
Worm gearmotors: Check their low-speed efficiency (2) ..... Aug 46
P/M gears come of age (4) ..... Sep 37
Why gears make noise (1) ..... Sep 48
Helicopter transmission is research aid (1) ..... Oct 81
Program your calculator for gear drive problems—Part 6 (2) . Oct 94
Adjustable-speed gear drive (2) ..... Nov 46

LUBRICANTS AND SEALS

Title, length **Month, page**

1974

Fretting of bronze on steel: How to see it; how to avoid it (3) Feb 37
Heavy-lift helicopter brings up drive ideas (14-1/3) ..... Mar 46
What about wood bearings (2) ..... Jul 50
Session Chairman sees lube interest at NCPT (1-1/2) ..... Jul 53
Magnetic plugs help prevent wear (1) ..... Nov 33

1975

How to care for needle roller bearings—Part 2 (3) ..... Apr 58
Monitoring sleeve bearing and oil temperature (1-1/3) ..... Jul 45
Coated gears shrug at temperature extremes (3) ..... Sep 49
What is stick-slip? (1/2) ..... Sep 55
Oil-containing poly matrix can replace bearing grease (2) .... Sep 66

1976

Historical highlights of plain bearings and lubricants (1) ..... Jan 32
Aerosol lubricant helps run-in gears and bearings (1) ..... Feb 59
Ferrofluid seals help eliminate contaminants and leaks (1) .... Jul 48
P/M gears come of age (4) ..... Sep 37
Centralized lube methods: Characteristics and limits (2) ..... Sep 46
How to select radial lip seals—Part 1 (3) ..... Nov 48
Eight ways to stop rolling bearing failure—Part 2 (3) ..... Dec 53
How to select radial lip seals—Part 2 (2) ..... Dec 56

CONTROLS

Title, length **Month, page**

1975

Rotary actuator helps stop rocking the boat (2) ..... Feb 50
Controlling Power Transmission Systems, Power Transmission and control, why and how—Part 1 (3) ..... Mar 37
Remote controls simplify mobile hydrostatic drives (3) ..... Mar 44
Turbine and reducer team up in missile actuator (2) ..... Apr 66
Controlling Power Transmission Systems, Control principles and concepts—Part 1 (3) ..... May 65
Modular design eases troubleshooting of lift truck motor controls (3) ..... Jun 55
Solid state control of electric drives—Part 1 (2) ..... Jun 58
Controlling Power Transmission Systems, Control principles and concepts—Part 2 (3) ..... Jun 67
Controlling Power Transmission Systems, Definitions and standards—Part 1 (4) ..... Jul 29
Monitoring sleeve bearing and oil temperature (1-1/3) ..... Jul 45
Load cells in bearings keep efficiency watch (1) ..... Jul 48
Closed-loop differential drive simplifies strip processing (3) .. Aug 41
Drive components that run a V-belt life tester (2) ..... Aug 45
Controlling Power Transmission Systems, Definitions and standards—Part 2 (3) ..... Aug 59
Controlling Power Transmission Systems, Characteristics of machine and process variables—Part 1 (4) ..... Sep 43
Clutch/brakes and photoelectrics package the goods (1) ..... Oct 75
Controlling Power Transmission Systems, Characteristics of machine and process variables—Part 2 (4) ..... Oct 117
Solid-state industrial power and control come of age (3) ..... Nov 50
Adjustable frequency for multimotor drive controls (3) ..... Nov 53
D.c. drive modules power printing presses (2) ..... Nov 56
Controlling Power Transmission Systems, Characteristics of machine and process variables—Part 3 (4) ..... Nov 71
Bandsaw control system has automatic operation (2) ..... Dec 33
Controlling Power Transmission Systems, Characteristics of machine and process variables—Part 4 (3) ..... Dec 37

1976

Controlling Power Transmission Systems, Automatic process control model—Part 1 (3) ..... Jan 123
Controlling Power Transmission Systems, Automatic process control model—Part 2 (4) ..... Feb 35
Constant tension drives speed vinyl production (4) ..... Feb 47
How to select d.c. servomotors (4) ..... Feb 52
Solid state control of electric drives—Part 2 (3) ..... Feb 56
Drives help the ancient windmill go mod (3) ..... Mar 56
Controlling Power Transmission Systems, Automatic process control model—Part 3 (4) ..... Mar 63
Controlling Power Transmission Systems, Open- and closed-loop principles—Part 1 (5) ..... Apr 69
Controlling Power Transmission Systems, Open- and closed-loop principles—Part 2 (4) ..... May 53
Modular overload relays protect a.c. motors (2) ..... Jun 64
Solid state control of electric drives—Part 3 (2) ..... Jun 66
How to get safe starts on 3-phase motors (3) ..... Jun 68
Controlling Power Transmission Systems, Electrical considerations in control systems—Part 1 (4) ..... Jun 73
Controlling Power Transmission Systems, Electrical considerations in control systems—Part 2 (4) ..... Jul 51
Controlling Power Transmission Systems, Electrical considerations in control systems—Part 3 (4) ..... Aug 69
Controlling Power Transmission Systems, Electrical considerations in control systems—Part 4 (3) ..... Sep 69
Glove maker has twin clutch-brake modules (1) ..... Oct 75
Drive simulates jet engine (1) ..... Oct 85
Boring mill control has 32-tool capacity (1) ..... Oct 87
Solid state control of electric drives—Part 4 (2) ..... Oct 96
Controlling Power Transmission Systems, Signal characteristics and practice—Part 1 (3) ..... Oct 131
Solid state control of electric drives—Part 5 (4) ..... Nov 51
Controlling Power Transmission Systems, Signal characteristics and practice—Part 2 (4) ..... Nov 65
Controlling Power Transmission Systems, Signal characteristics and practice—Part 3 (4) ..... Dec 67

OTHER COMPONENTS

Title, length **Month, page**

1974

Heavy-lift helicopter brings up drive ideas (14-1/3) ..... Mar 49
Analyzing machine noise and vibration (3) ..... May 54
Motorized drives give lithography press a hand (2) ..... May 58
Darlington switches refine motor control (3) ..... May 62
Actuators challenge winches on lake carriers (2) ..... Jun 78
Applying the hex to keyed-shaft stresses (3) ..... Jul 47
Understanding and using frictional double-tapered shaft-hub connections (5) ..... Jul 57
Drives and bearings round out tire production (5) ..... Sep 55
Balancing vertical shaft rotating machines (3) ..... Sep 60
Double-tapered connections avoid shrink fit problems (1) .... Oct 95
Ball screws drive case palletizer (1) ..... Oct 99
Lazy gears that drive nothing, but work well (4) ..... Dec 29
An alarm in time saves downtime (2) ..... Dec 35

1975

Phase-adjusting hub keeps colors in line (2-1/3) ..... Feb 41
Polygon connections replace keys (1) ..... Feb 52
Elastomeric fasteners dampen noise—and more—in home ventilating units (1) ..... Mar 43
Using controlled stiffness and isolation in drives (3-1/2) ..... May 72
Drive components that run a V-belt life tester (2) ..... Aug 45
Double-tapered connection shrink fits without heat (1) ..... Oct 77

1976

Machine noise: What to do about it (4-1/3) ..... Apr 53
Nomograph gives maximum rated speed for flywheels and pulleys (2) ..... Apr 62
Finding a shaft center distance (1-1/3) ..... Apr 64
Frictional locking devices mount reducers on shafts (3) ..... Aug 41

EDUCATION

Title, length **Month, page**

1974

Power Transmission Design: A 15-year checkup (1) ..... Jan 83
Laurence L. Browning, Jr. on trends in power transmission (4) Jan 84
Who do we think you are? (2-1/3) ..... Jan 88
The power-transmission industry: A view from sales (2/3) ..... Jan 90
What are you thinking of now? Results of a poll (4) ..... Jan 91
Blueprint and gavel, you and the law: Class actions (2/3) ..... Jan 96
Write Angles: Making the message easy to bear, Clarity—how to know it when you see it (2/3) ..... Jan 97
Chuck Yemington on single-phase-input d.c. drives: Component improvements bring new job opportunities to d.c. drives (1) Jan 98
Meeting Metric: What will it cost? (1-1/3) ..... Jan 99
Chuck Yemington on single-phase-input d.c. drives: Rectifier and regulator advances cut first cost (1-1/3) ..... Feb 50
Meeting Metric: Yards of Old (1) ..... Mar 70
Chuck Yemington on single-phase-input d.c. drives: Laws, codes, and standards complicate drive specification (1) ..... Mar 72
Blueprint and gavel, you and the law: Opposition to class actions (2/3) ..... Mar 76
Chuck Yemington on single-phase-input d.c. drives: More about codes and standards (2/3) ..... Apr 47
Meeting Metric: ISO-USA-1973 (1) ..... Apr 48
Blueprint and gavel, you and the law: Class action—A doubtful future (2/3) ..... Apr 67
Meeting Metric: Saying it in SI (1) ..... May 53
Chuck Yemington on single-phase-input d.c. drives: Service deviation affects drive performance (1) ..... May 57
Blueprint and gavel, you and the law: Uniform Commercial Code (2/3) ..... May 72
Write Angles: The no-good outfit with the good PR (2/3) ..... May 84
Chuck Yemington on single-phase-input d.c. drives: Speed regulation and IR compensation (1) ..... Jun 77
Meeting Metric: Rounding off conversions (1) ..... Jun 81
Blueprint and Gavel, you and the law: Delivery and acceptance (1) ..... Jun 82
Meeting Metric: Metric plan bill is killed in House by 240-153 vote (1) ..... Jul 52
Chuck Yemington on single-phase-input d.c. drives: More on IR compensation (1) ..... Jul 56
Chuck Yemington on single-phase-input d.c. drives: Protective current limit: What it can do (1) ..... Aug 46
Blueprint and gavel, you and the law: More about acceptance of goods (2/3) ..... Aug 55
Meeting Metric: More on conversion techniques (1) ..... Oct 140
Write Angles: How to be a foreign correspondent (2/3) ..... Oct 142
Blueprint and gavel, you and the law: The UCC—A case in point (2/3) ..... Oct 144
Chuck Yemington on single-phase-input d.c. drives: More on protective current limit (1) ..... Oct 146
Chuck Yemington on single-phase-input d.c. drives: Torque control and torque taper (2/3) ..... Nov 34
Chuck Yemington on single-phase-input d.c. drives: More on torque control (2/3) ..... Dec 33
Write Angles: The everlasting thank-you letter (2/3) ..... Dec 41

1975

Controlling Power Transmission Systems, A Basic Education Series. See "Controls."
Focus on traction drives (1-2/3) ..... Mar 48
Chuck Yemington on single-phase-input d.c. drives: Speed-torque programs (1) ..... Mar 50
Blueprint and gavel, you and the law—The UCC—A case in point: The court's ruling (1) ..... Mar 64
Chuck Yemington on single-phase-input d.c. drives—More on torque programming (1) ..... Apr 69
Focus on traction drives (1) ..... May 84
Meeting metric—Chain drive in CGS and SI (1-2/3) ..... May 86
Blueprint and gavel, you and the law: Group liability (2/3) ..... Jun 70
Meeting Metric—More about chain drive in CGS and SI (2/3) ..... Jul 58
Focus on traction drives (1-1/3) ..... Aug 44
Chuck Yemington on single-phase-input d.c. drives—Braking: What to use (1) ..... Aug 53
Blueprint and gavel, you and the law—A continuing duty (2/3) Aug 56
Blueprint and gavel, you and the law—Second collision (2/3) ..... Sep 82
Focus on traction drives (1-1/3) ..... Oct 122
Meeting Metric—Law of the metre 1875-1975 (1) ..... Dec 35

1976

PTD's Bicentennial Review (4) ..... Jan 13
Historical highlights of associations (1-1/2) ..... Jan 48
Forward to 2000 (4) ..... Jan 50
Chuck Yemington on single-phase-input d.c. drives: Reversing with dynamic braking and regenerative drives (1) Feb 51
Focus on traction drives (1) ..... Apr 66
Write Angles: What do business letters really cost? (2/3) ..... Apr 82
Saving energy with industrial drive systems (1) ..... Jun 59
Meeting Metric—Inching toward metrication (2/3) ..... Jul 56
Saving energy with industrial drive systems (1) ..... Oct 93
Write Angles: Your company steals from my company (2/3) Oct 118
Meeting Metric—Lessons learned (1) ..... Oct 140
Saving energy with industrial drive systems (1) ..... Nov 55
Saving energy with industrial drive systems (1-1-3) ..... Dec 58

is the easiest way to get PRODUCT INFORMATION

Circling the reader service card in every issue is the easiest, fastest way for you to request the product information you need.

Take advantage of our fast, convenient product information service every month!
